*Freedom Travel Technology is in the business of making computer based solutions accessible and understandable for the small to medium travel professionals, maximizing time and resource usage. Our services include AdminisTour, Web Design and Hosting, Consultation, Training and Special Engagements.*

**Are you managing your tour operations by storing information in multiple software programs? Worse yet, are you keeping your data in a shoebox or filing cabinet?**

Programs like Excel, Word, Act and others fulfill different business needs, but they also require a lot of duplicate entries. This can result in disorganized, incorrect and often lost information. Because these programs are not Web-based, they are not accessible or current for more than one user at a time. You probably realize that this way of managing your business is far from optimal, but finding the right solution can be time-consuming, confusing and expensive.

Most of the tour management software programs on the market are difficult to use, cost-prohibitive and resource-intensive. AdminisTour, the Tour Management and Reservation Software created by and for tour operators, addresses and eliminates the hassles associated with other systems.

## TESTIMONIALS

---

*"Since our usage of AdminisTour, I have experienced a new freedom associated with my business. I can now oversee all aspects of the company no matter where in the world I am visiting. One group contact complemented us: "No matter who I talk to in your office, they all know what's going on." It has truly brought our company up a level for a very minimal investment."*

*Kay Cikity, Free Sprit Vacations, Gilbert, AZ*

*"AdminisTour has been extremely helpful. The program also saves me a lot of time that I would have spent on administrative tasks, thus freeing up my time for more productive work. Even while guiding some of my tours, I can manage many operational issues from wherever I am in Mexico."*

*Augustin Caparros, A Closer Look Tours, Copper Canyon, Mexico*

*"My company's solution absolutely had to be user friendly. AdminisTour is has exceeded my expectations by telling me how much money I made on each tour, which is a God-send! I was actually able to save one office person, and when I showed my accountant the reports, he was very impressed!"*
